This course will equip the student with a range of knowledge, skills & experience integral to the sustainability & environmental professional. The MSc in Sustainability Business Specialist course offered at Coventry University meets the requirements of Institute for Apprenticeships & Technical Education / Sustainability Business Specialist (integrated degree) & the research interests & commercial background of the lecturing staff.

Accreditation

The course has been aligned to the SBS Specification, and to the Learning Outcomes of IEMA. Our MSc in Sustainability & Environmental Management already has accreditation from IEMA and we will look to extend this accreditation to cover the MSc Sustainability Business Specialist .

Delivery Features:

Face to face induction and on-campus summer school with day release on-line contact for the majority of the course, supplemented by on-line materials for the student to study before and after class as guided.

Assessment

This course will be assessed via coursework only, no exams. We use time constrained assessments such as environmental management systems audit, presentations, in addition to reports, business cases, Board Papers, videos and posters. There will be a mixture of individual and team work.

Level 7, 25months, Funding rate £11,000
